

Dear students, congratulations on moving up to 3rd grade!

We enjoyed being your teachers this year! We hope you can enjoy your summer break while also practicing some of the skills we have learned at school this year. If you take the time to complete these assignments, your 3rd grade teachers will have a special prize for you! Don't forget to print these documents out to be able to turn them in at the beginning of the next school year.

Part 1:

Complete the Calendar Reading Logs that we have included in this folder. We want you to read for at least 20 minutes each day so you can continue becoming a better reader! You can choose if you would like to read on RazPlus or read a regular book, the important thing is to read! Make sure you include the name on the book and the number of minutes you have read each day.

Part 2:

Pick a book (it can be used to complete Calendar Reading Log as well) and use the Tic-Tac-Toe Reading Choice Board to analyze it. Remember you need to choose at least 3 activities from the choice board to form a vertical, horizontal or diagonal line.

Part 3:

Practice the 2nd Grade High Frequency Words List. Practice identifying them at least three times a week until you are able to read them all fluently! You can time yourself and see if you can beat your record each day!

Part 4:

Solve the Two-digit Addition and Two-digit Subtraction problems. You can work on 1 or 2 every day until you complete all the pages.

Part 5:

Work on ReflexMath or Khan Academy at least 3 times every week until you reach the green light.

We hope you enjoy your summer vacation!

Love,

Ms. Claudia and Ms. Dodson
